About Guardian's Services

OCCUPATIONAL PHYSIOTHERAPY

Mobile Physiotherapy service specialising in the early intervention treatment of Workers' Compensation and Motor Vehicle Accident injuries.

- Refer patient through at the acute stage of injury: **<1 week from date of injury**
- Specialists in neuro-muscular and musculo-skeletal injuries
- We are a mobile service, so will travel to your patient
- It is important that you guide your patient in the right direction to get the right diagnosis and treatment

EXERCISE REHABILITATION

A team of mobile Exercise Physiologists, specialising in the physical rehabilitation of Workers' Compensation and Motor Vehicle Accident injuries.

- Refer patient through at the sub-acute stage of injury: **>2 weeks from date of injury**
- Implementation of early exercise management and active treatment is essential to improve the recovery outcomes for your patient
- Education around self-management and self directed-exercise programmes is a key aspect of our service
- We will provide you regular updates to assist with certifying your patients work capacity

WORKPLACE REHABILITATION

As an accredited Workplace Rehabilitation Provider, we facilitate expert return to work services. We are a proactive and outcome-focused service that strives to achieve positive return to work outcomes.

Refer your patient through when:

- There is any uncertainty around their return to work
- They have concerns with what duties they are able to complete
- There is conflict with the patient and employer
- Barriers have been identified that may prevent or delay their return to work
- Workplace modifications are required to facilitate a safe return to work

Call us today with any queries on the above services on **(08) 9336 4447**.

Guardian makes a difference to people's lives by empowering them through quality exercise, mobile physiotherapy and specialised return to work services
